I often do shopping at your shop. However, this is your second mistake. Now I think that shopping through the Internet is sometimes (② 役立つ) and sometimes not. I think there are three good points. One is that we can see many kinds of clothes on the website. Another is that we don't have to visit the shop. The other is that you send clothes to our house. We can use the time for doing other things. But there are some bad points. One is that we cannot look at and touch clothes directly. Another is that we have to wait for their arrival for a while. So, please don't make the same mistake again. ③ (careful / want / be / you / I / to / more).

Mary Brown

From: New York Fashion Shop To: Mary Brown Date: November 2 11:03 Subject: We are sorry

Dear Ms. Brown,

Thank you for your e-mail. We are sorry about our mistake. We'll never make the same mistake again. We could learn from you about some good points and bad points of our shop. We are also sorry, but the kind of sweater that you want was sold out yesterday. We are now producing the ones in Los Angeles quickly. So it will take a few days to send it to you. 第 四 問 次の英文を読んで、あとの問いに答えなさい。

Do you know sea turtles? Maybe, yes. Remember the old Japanese story “*Urashima-Taro.*” You have known one in the story since you were a child, right?

Sea turtles were born about two billion years ago, long before humans were born. They live a long time. But now they are in danger of disappearing. What is happening to them? Today we are going to learn about that, and let’s think about what to do for them.

The number of sea turtles is now decreasing. Can you guess why? I’ll show you three big reasons. The first one is that people have caught many of the sea turtles and their eggs for food for many years. They were popular, traditional food for some people in the world, even in Japan. The second one is that sea turtles are caught also for the use as ornaments and leather goods. In fact, many countries must not sell and buy sea turtles according to the Washington Convention (CITES), but some countries still keep doing so. The third one is that plastics such as balloons, straws and plastic bags often kill sea turtles. They like to eat jellyfish very much. Every year, hundreds of sea turtles die from eating plastics.

These days, however, many countries in the world are thinking more carefully about (②) sea turtles. Straws and plastic bags have been convenient for our lives, but they have become the cause of death for sea turtles and other animals and destroyed the natural environment. So, the idea and movement to stop using plastics has started in many countries. ③ Now, people (instead / new / to / and use / trying / things / are / make) of plastic ones. As you know, in Japan, you must pay some money for getting plastic bags for shopping from July 1, 2020.

Let’s think about something we can do. Do you throw away plastics on the roadside? Do you use a plastic straw when you drink juice? Please don’t throw away plastics on the roadside. Please don’t use a plastic straw. Let’s take our own shopping bag when we go shopping. I believe there are a lot of things which we can do, and all of us can do them. That will lead to protecting natural animals’ lives and environment.
